

 **Memorandum of Understanding (MoU) between the Ministry of New and Renewable Energy of the Republic of India and the Government of Scotland in the field of Renewable Energy**

A Memorandum of Undertaking (MoU) was signed in October, 2009 between the Ministry of New and Renewable Energy, Government of India and Ministry of Culture, External Affairs and the Constitution of the Government of Scotland in the field of Renewable Energy. The objective of the MoU is to promote bilateral cooperation between the two countries in various areas of New and Renewable Energy. The bilateral cooperation is to be implemented through exchange and training of scientific and technical personnel/information and transfer of know-how technology and development research in specific fields/projects.

It is hoped that the MoU will not only help in bilateral cooperation between the two countries but will also enhance cooperation between India and Scotland in general.
