

 **50 MW target for solar power generation during the eleventh five year plan**

LOK SABHA

India receives solar energy equivalent to over 5,000 trillion kWh per year. The daily average solar energy incident varies from 4 - 7 kWh per square metre of the receiving area depending upon the location.

A target of 50 MW has been set for solar power generation during the Eleventh Five Year Plan, which is likely to be achieved.

Minister of State for the Ministry of New and Renewable Energy Shri Vilas Muttemwar replied in a written question by Shri Shri Sanat Kumar Mandal and Shri Balashowry Vallabhaneni in Lok Sabha today.
