To,
Interested Entrepreneur/ Consultants/
Technology providers/ Manufactures/
Project Financing Organizations/ Banks/
Project Developers/ Users.

Subject: Development of projects on "Demonstration of an Integrated Technology Package on Biogas-Fertilizer Plants (BGFP) for Generation, Purification/ Enrichment, Bottling and Piped distribution of Biogas towards harnessing 'Near Total Potential of suitable Biomass in Rural Areas" in India.

The Ministry of New and Renewable Energy is considering taking up projects for "Demonstration of an Integrated Technology Package on Biogas-Fertilizer Plants (BGFP) for Generation, Purification/ Enrichment, Bottling and Piped distribution of Biogas forwards harnessing 'Near Total Potential of suitable Biomass in Rural Areas" in India for its utilization for water pumping, small power generation, refrigeration, space cooling, motive, power, cooking and heating applications. The demonstration projects are proposed to be taken up for varying technology options and available feed materials types including loose and leafy biomass and wastes from kitchens and gardens in addition to traditionally used cattle dung. In order to achieve viability and self sustainability over a period of time on a commercial scale the technology demonstration projects are proposed to be taken up, preferably through, private sector participation.

2. For thrashing out various issues and working out a suitable mechanism for taking up such projects various stake holders, namely experts, consultants, institutions, state nodal agencies, financing organizations/ Banks and potential entrepreneurs/ industry, desirous of taking up such projects are requested provide their inputs and also fill up the enclosed proforma (Enclosure-I). The inputs may be sent to the undersigned by E-mail/ Fax latest by 31st August 2008.
3. Looking forward for an early response.

Dr. A.R. Shukla
Adviser (Bio Energy)

Enclosure-I

“Demonstration of an Integrated Technology Package on Biogas-Fertilizer Plants (BGFP) for Generation, Purification/ Enrichment, Bottling and Piped distribution of Biogas towards harnessing ‘Near Total Potential of suitable Biomass in Rural Areas’ in India.

1. Name:

2. Organization:

3. Quick Contacts:

Landline: E-mail ID

Mobile Fax

4. Postal Address:

Mohalla/ Village/ Sector

Taluka/ Block

District

Pin Code

State

5. Participation Type: I May participate as :

Entrepreneur Manufacturer Consultant

Technology Provider Project Financing

Project Developer User Any Other

6. Suitable Financial Package: MNRE Support -----% of Cost of Project

IREDA Support----- % of Cost of Project

7. Any other Suggestion Input on: (i) Technology (ii) Financial Package
(iii) Implementation (iv) Monitoring
(v) Others
